Sacred Mystery Conscious Evolution and the Emerging Human

by Visionary Futurist
Barbara Marx Hubbard
with **Jean Feraca**

August 9-10, 2013
Holy Wisdom Monastery
Middleton, Wisconsin

Join us for ground-breaking conversations with Barbara Marx Hubbard, spiritual visionary and evolutionary educator. Be prepared to stretch your thinking and excite your imagination. Hear Barbara share her

remarkable faith journey and prophetic call to advance a new era of conscious evolution. Personal testimony is a powerful force. It can awaken us to our own calling so we, too, can make a leap in consciousness and move forward with our own evolutionary journey.

Through interactive workshops by Barbara Marx Hubbard and inquiry and dialogue guided by Jean Feraca, you will learn to see with evolutionary eyes and gain insights beyond the reach of past generations. Learn how daily life shaped by these insights takes us to new depths of personal, communal and planetary enrichment and fulfillment.

Barbara will share her experience of the Christ presence. She will explore key New Testament passages that have transformed her understanding of our own scientific and technologically advanced age. Become engaged as she connects you with sources in the life of Jesus that point to our as yet unfulfilled human potential.

Becoming Agents of a Co-Creative Culture

9:30 a.m.-12:00 noon — Engaging Evolutionary Spirituality

This experiential session asks how the principles of conscious evolution can help us solve global crises such as world hunger, poverty, and climate change. How does our understanding of the evolution of consciousness affect our sense of vocational calling, and how do we imagine our full potential selves?

1:30-4:00 p.m. — The Wheel of Co-Creation

Hear how Barbara’s model called the Wheel of Co-creation deepens our evolutionary (Christ) consciousness and advances us towards a co-creative society.
